

Zak and Kristina

Intent Statement

Being a Knight means striving to consistently improve and have a willingness to challenge the ideals which we're familiar with. As multifaceted student leaders, our desire to serve the student body for its advancement is deeper than holding a title. Having such an opportunity will become a leverage point for our existing commitment to bettering the communities in which we may or may not belong to. With over six years of combined experiences as knights, we've both been able to become part of an expansive ecosystem, fostered to the learning capabilities and advancement of its large population. While we have a deep love and respect for our campus, we recognize that there is always a chance for enacting change in order to improve upon the standards of which our campus has been established upon, but may find struggle with. With the chance to run for President and Vice President, we yearn to leave our campus behind far better than we met it, hoping to create sustainable and impactful change to benefit our current and future student body. Being said, we're excited and prepared to showcase why we fight, and do so for your future!
